

Errata

Brunner, H.; Stefaniak, S.; Zabel, M. *Synthesis* **1999**, 1776.

In Table 3, entry 2 the hydrogenation result is wrong. Instead of 96(*S*) it should be 92(*R*) in accord with the main conclusion that the enantioselectivity is governed by the chiral cyclopentane core and not by the periphery. We thank Dr. B. Bosch, Aventis Research & Technologies, 65926 Frankfurt am Main, for drawing our attention to the error.
